

This collection of philosophical musings and essays was inspired by the works of Nietzsche. I had endeavored to read the complete works of Nietzsche, and then took time to reflect upon his message, internalize it within my own experiences, and to write freely about my thoughts on inspired subjects. This small collection includes writing on many topics of weight, including Nietzsche, nihilism, philosophy, God, society, and death. However, just like Nietzsche, there is an inherent optimism in this treatment of philosophy, that we must live for the world as it is and cherish our time here. Given that this was over ten years ago, I have revisited these essays and decided to publish them in their original forms, so that I can share my thought processes at a seminal time in my life. I hope you enjoy these essays and they inspire you to study philosophy and to begin your journey as an author.
