

Feels Real board books for toddlers are filled with vivid color photos of animals-- and when touched, the animals truly feel real! That's because every illustration has a texture patch that matches the pictured animal. These special textures feel like the fur or the skin of animals that little boys and girls like to pet or touch. All the animal photos in these delightful picture books seem to come to life when kids touch them and discover how they feel. Mini Beasts shows a variety of unusual little creatures with surfaces and textures that kids can touch.
