

Simple thumb pot modelling. The animals and figures contained in this book were developed over the years and have been used to introduce an important branch of clay modelling to students namely thumb pots. The figures are built up from simple shapes to which the students can relate, the body shape made using thumb pot techniques. Each project has an element of decision making and measurement built into the worksheet with self-expression encouraged in the decoration and design details applied to each model which becomes an individual creation. Single thumb pot creation is studied in this project book. We look into representing large and small animal figures and a rounded human shape in the gnome. Some of the figures are based on a round hollow profile and some have an oval shape as a body. This branch of clay modelling lends itself to all kinds of innovations and our suggestions represent a few for you to expand on and develop, we teach you the basic techniques, the rest is up to you and your imagination. Enjoy your clay modelling. Brian. Please visit our website for more information. bmpotterycrefts.co.uk
